Business solutions

Great sound. Engineered

We make life sound better.

Great sound is so much more than *just* sound. It's a way of transforming lives. That's why we make it our life's work to be the experts who deliver incredible sound. We believe that having some of the world's best sound engineers, in addition to the most advanced acoustic testing and development facilities, enables us to make solutions that are truly intelligent and beneficial.

Engineered for purpose

Hundreds of hours of research and meticulous engineering go into each and every Jabra product. The result? Products that are innovatively engineered for purpose, and technology that won't get in your way but will have a huge impact in making what you do better, more efficient, and more productive. We inspire people to go further than before.

We have been enabling people go further for nearly 150 years, and Jabra is proud to be part of the GN Group – a brave and inventive group of people who have been breaking frontiers since 1869. From our home in Copenhagen, Denmark, the GN Group revolutionized communications by laying the world's first submarine cable, which carried the first telegraph line linking East to West and brought the world closer together.

“The spirit of the GN Group inspires us to break boundaries. We created the world's first ultra noise-cancelling microphone.”

The spirit of the GN Group inspires us to break boundaries of our own – for example we've created the world's first ultra noise-cancelling microphone, the world's first Bluetooth® headset, and the world's first sports headphones with integrated heart-rate monitor, to name just a few.

Pushing creative limits

And we don't just share the GN Group's pioneering spirit, we share their knowledge and expertise, too. Our engineers advance technology, set new standards, and push their creative limits. And then they share what they've done within our Group. Consumer tech makes its way into professional tech, medical-grade sound solutions make their way into consumer products, and always with the same goal – to make life sound better.

Thanks to our close relationship with ReSound, our sister brand, we have unrivalled sound capabilities. ReSound are world-leading hearing-aid experts who blend design and technology to bring people with hearing loss closer to the things they love.

Personalized hearing experience

These powerful, discreet, and smart hearing aids can now be controlled by integrated apps. This delivers a natural, personalized hearing experience and can transform the hearing aids into wireless stereo headphones.

Anyone can make sound, but we settle for nothing less than the world's best. Because great sound isn't just made. It's Jabra engineered.

Unified Communications

Our sound solutions help you get the full benefit from your UC investment through amazing sound and simple, easy to use to use sound devices.

At Jabra, we focus on the individuals that make up the organization. Behind each Jabra sound device is a person who needs to adapt to new technology and embrace new ways of working.

To help them adapt to the new reality, we map the exact ways they'll use our products to create value – meaning you get the productivity you'd expect from our products.

What Is Unified Communications?

UC makes it easier for people to connect, communicate and collaborate. UC brings together all office communication devices into a single, integrated application and user experience. This includes replacing traditional telephones with softphones.

With a UC solution in place, employees are more productive, interactions are smoother, and you get tangible cost reductions. This provides a very compelling business case for companies.

Perfection in partnership

Strategic alliances

We design, develop and test our sound solutions in close co-operation with the market's leading telecom and UC providers. We have earned the certification and endorsement of Microsoft, Cisco, Avaya, Unify, Alcatel, and many others. We work closely with them to integrate our products into the current and new generations of their UC solutions – which is why we're the market leader in UC-optimized sound devices.

New ways of working

Hacking Productivity in the Office:
The Right Technology, Optimized

“These days even instant gratification takes too long.”

Carrie Fisher

We live in a fast-paced world and sometimes, from our insatiable need for speed, we miss the forest for the trees. At work we often confuse purpose and productivity. Today’s fast-as-light business climate might be vital for survival, but it often drains our finances, stifles innovation and exhausts employees.

How do we find new ways of working that accommodate today’s productivity targets but also enhance employee needs and the freedom to innovate? Finding the ‘optimal tools’ is an important part of the process. Work is no longer a place that you go to, but an activity that you engage in, regardless of place, and often regardless of time. Dispersed teams and community management are the new order of business.

These new challenges are reflected in the products Jabra takes to market. They are invented with the individual in mind, and recognize that greater productivity must be coupled with choices about the technology we use.

Our philosophy for New Ways of Working is built around the idea of organizing work with a focus on people reaching their full potential. Managers and employees alike make deliberate choices about workmodes – whether collaboration, concentration, conversation or communication – and for each, there are right tools for the job.

New Ways of Working is about surrounding ourselves with applicable technologies and processes, and a culture that helps us to achieve our full potential.

We’ve all heard the expression “Work smarter, not harder.” At Jabra, we’re dedicated to giving you the right tools to achieve this.

“We shouldn’t expect office workers to perform their jobs with the wrong tools. But what are the ‘right’ tools?”

Quality as standard Jabra headset technology

Standard features that take your communication to the next level

UC Plug-and-Play

Intuitive call control and seamless connection to all leading UC applications and softphones. Easy to set up and easy to use. You're free from any installation expertise or extensive training requirement.

Secure Wireless Calls

All wireless office headsets digitally encrypt the signal between the headset and the base. That's guaranteed confidentiality and peace of mind when you need your privacy.

High Durability

Reliable and built to last. Every headset is subject to extensive testing, everything from cable flexing over boom arm rotations to acoustic tests. Durability cuts costs and saves time.

Remote Call Control (RCC)

RCC gives you call control with your wireless headset from your desk phone, using either an Electronic Hook Switch (EHS) cable or a mechanical handset lifter (Jabra GN1000).

Optimized for Skype for Business

The vast majority of Jabra products come in standard variants or variants that have been optimized for Microsoft.

DECT vs. Bluetooth® Technology

DECT – Best possible range and density performance.
Bluetooth – When mobility with one solution, in and outside of the office, is a key need.

Audio quality

Clear Sound

Clear sound is important for call efficiency and accuracy, and providing superior service. Digital Signal Processing (DSP) technology optimizes sound performance by filtering out distracting background noise, reducing call handling times and and potential misunderstandings.

HD Voice – Wideband audio

Enjoy high-definition sound with HD Voice and get crystal clear, intelligible communication. You get life-like, vibrant conversations that let you focus on the content of the call instead of struggling to hear the person on the other end of the line.

Noise cancellation

Noise Blackout™

Jabra Noise Blackout technology eliminates disturbing background noise such as wind, surrounding conversations or traffic to enhance your voice. So you can now talk freely without even raising your voice.

Noise Cancellation

Choose between different noise canceling microphones that filter out unwanted background noise. Great for use in noisier, open office environments.

Wind Noise Protection

Wind Noise Protection enables you to keep the thread of your conversation in open air environments without any interference. Walk, bike, run, work outside and talk with no need to raise your voice or shout to be heard.

Hearing protection

PeakStop™

PeakStop technology, included with all Jabra headsets, immediately removes potentially harmful loud sounds or tones before they reach your ears and keep the sound level within a safe range to protect your hearing.

SafeTone™

SafeTone technology, included with selected Jabra headsets, protects your hearing by cutting off sudden loud noises and maintaining a safe average sound level throughout the day – meeting EU noise at work compliance and NA recommendations.

For more information please visit jabra.com/hearingprotection

Comfort

Different wearing styles

Most Jabra headsets have a choice of up to three different wearing styles for the most comfortable and customizable fit.

Mono or Duo speaker

Depending on your work environment or simply your personal preference, for many of our headsets, you can choose between mono (one) and duo (two) speakers.

Jabra Direct for Windows

A feature-rich integrated software solution for your headsets. Manage firmware and software updates to:

- Facilitate headset adoption
- Reduce the time spent on headset deployment
- Optimize the conversation experience for customers

All-in-one, user-friendly interface.

Download it free today at jabra.com/direct

Jabra Suite for Mac

Get your Mac softphone and Jabra sound device speaking the same language.

- Control your Mac softphone calls from your Jabra device
- Improve your Jabra device with firmware updates
- Handle Bluetooth® connections between your Mac and Jabra headset

Download it free today at jabra.com/macsuite

Jabra Xpress™

Jabra Xpress is an online service designed for IT professionals that helps mass deploy and manage Jabra USB audio devices in record time, remotely. It has smart tools such as the new Jabra sound device dashboard – a real lifecycle management tool to populate status reports, device inventory and forecasts. Jabra Xpress ensures:

- Easy mass deployment
- Smart asset management
- Agile maintenance

To accelerate UC adoption and maximize Jabra headset ROI, download Jabra Xpress today at jabra.com/xpress

Designed for different needs

Choose the right solution

When you're looking for the perfect headset, there are things you need to consider

Where are you working?

At office desk
You spend most of your time in the office, at the desk and on the phone.

Around the office
You spend more time in the office than on the road, but you need freedom in the office to perform.

On the go
You spend more time on the move and you need to be able to work from anywhere.

What do you want to connect?

You'll need to consider your connectivity needs to make sure your headset solution is compatible with your phone system. You can always contact a Jabra reseller if you need more advice.

Traditional desk phone

Softphone/VoIP

Smartphone

Tablet

Multiple devices

How noisy is your work environment?

Whether it's a little chatter in the background or a colleague sitting right beside you, the right speakers help you get the most out of your calls, while the right microphone delivers quality sound on the other end – where it really counts.

Low noise
Omni-directional microphones pick up sound from any direction and block ambient and surrounding noise. Fine for the traditional, low-noise office.

Average noise
Noise cancelling microphones and a mono speaker reduce unwanted background noise while ensuring you're still aware of your surroundings. Great for use in noisier, open office environments.

High noise
Noise/ultra noise cancelling microphones combined with duo speakers filter aggressive noise and can block the sound of someone sitting right beside you. Perfect for very noisy, distracting environments.

Wireless or corded?

Wireless headset solutions
Great if you want to move away from the desk or if you want a streamlined cordless design.

Corded headset solutions
Perfect if you only work at your desk and you want the best possible sound quality in one or both ears.

Work environment:

At office desk

Works with¹:

Desk phone and softphone

USB connects directly with your PC
QD (Quick Disconnect) connects to your desk phone through individual cables

The Jabra Biz 2400 II was developed with one goal in mind: to be the world's best corded headset, delivering both best-in-class noise cancellation and acoustic shock protection, as well as the industry's only unbreakable 360° swiveling boom and reinforced cord. Available in a variety of wearing styles.

Tip: due to the comfort of this headset, the Biz 2400 II Series is also being worn in office environments and not just in contact centers.

Etech Global Services

From inferior to superior call quality

Based in Nacogdoches, Texas, Etech Global Services provides an array of contact center services in English and Spanish, including inbound and outbound customer service and sales, customer win-back programs, web chat and email services. Through a stringent quality assurance process, the company records 100 percent of all voice and chat interactions while continuously evaluating its agents to ensure an ever-improving customer experience.

"The voice quality of the Jabra solution is far superior and the products can definitely withstand a lot of use from our agents"

Ronnie Mize
Senior Vice President for Information Technology

Jabra Biz 2300 Series

The voice of your brand

Hard-working, great-looking and designed for easy daily handling in the contact center. Your contact center agents are your brand ambassadors, so give them the tool to sound as clear as your brand. In Jabra's Biz 2300, world-class sound meets world-class durability in an exceptionally comfortable and stylish corded headset – keeping both your agents and your customers happy.

- Connect to a desk phone or softphone via USB or QD¹
- Superior call clarity
- Better conversations for the contact center
- Keep your contact center agents happy
- Foam or leather-feel ear cushions for added comfort
- The contact center headset that is built to last
- A USB variant with easy in-line call management
- Air Shock microphone reduces unwanted “pops” for better call quality

To learn more about the Jabra Biz 2300 Series go to jabra.com/biz2300

Work environment:  At office desk

Works with:  Desk phone and softphone

USB connects directly with your PC
QD (Quick Disconnect) connects to your desk phone through individual cables

Training your contact center agents is easy with Jabra

Jabra provides the full solution for training your agents with either the Jabra Link 850, Jabra Link 860, or the Jabra Link 265 USB supervisor cable

Please see pages 40-43 for full details

Jabra conference solutions
Conference calls made simple.
Collaboration made easy

From entry to premium, and from portable to stationary solutions, the Jabra Speak series offers a range of easy-to-use Plug and Play conference call speakerphones with superior sound quality to better meet today's personal and group collaboration needs.

Jabra Speak Series

Conference calls made simple. Collaboration made easy

Collaborate the easy way and connect conference calls in seconds, with the Jabra Speak Series. Intuitive speakerphones that connect via USB and/or Bluetooth® with crystal-clear sound, meaning no repetition or interruptions and calls start on time. All the conference call capabilities without the complexity.

- Slim and compact design
- USB Plug and Play solution
- Bluetooth® 4.0 connectivity for smartphone or tablet use when away from your PC¹
- Outstanding sound quality
- Stream music and sound or take voice calls
- Picks up sound from virtually any direction
- User-friendly call controls on the speakerphone
- Certified for Skype for Business
- Easy integration with your smartphone
- Easy voice-guided pairing – with up to 2 phones simultaneously
- Up to 15 hours talk time and 40 days stand-by

At office desk

Works with:

Softphone

A USB plug-and-play handset that seamlessly integrates with all Unified Communications platforms.

Electricité de France Serious technology for simple ideas

Electricité de France wanted their telephony equipment to reflect the vision they had for their own future. The latest generation of touch screen headsets delivered the highest quality and mobility to their employees. The benefits of intuitive, simple communication were obvious to EDF from the very start.

“You hear a ringtone, see the calling number on the touch screen, answer the call by touching the headset, navigate through the menus on the screen, speak ... Welcome to the age of Jabra.”

EDF, Electricité de France

Jabra accessories
Get the most out of your
Jabra audio solution

Add the accessories you need to empower your Jabra audio solution and fully meet your specific communication and collaboration requirements.

Simply seamless – USB enablers

Get increased user friendliness with your UC solution. To learn more about the Jabra accessories go to jabra.com/accessories

Jabra Link 180

Switch between desk and softphone on a single headset

- Ideal for transitioning from desk phone telephony to Unified Communications
- Manual switch for simple, hassle-free operation
- Cost-effective option for blended telephony environments
- Enables use of Jabra QD headsets with PC-based softphones

Jabra Link 230

Connect your corded QD headset to a softphone

- Enhanced sound and noise reduction experience
- Plug and Play USB adaptor
- Works with all Jabra corded QD headsets
- Compliant with Noise at Work Regulations

Jabra Link 260

Connect your corded QD headset to a softphone

- Inline call controls: answer/end calls, adjust volume and mute the microphone
- Compliant with Noise at Work Regulations
- Programmable soft buttons for individual preferences
- Works with all Jabra corded QD headsets

¹ Available variants: GN 1200 (fits most needs), GN 1210 (Carbon based), GN 1216 (Avaya) and GN 1221 (Noise at Work)

Jabra Link 265

Join the conversation or stay muted when training agents

- USB Y-training cable connects to any two Jabra QD headsets
- Supervisor function allows supervisor to stay muted or join the conversation
- Inline call controls; answer/end calls, adjust volume and mute the microphone
- Programmable soft buttons for individual preferences
- Compliant with Noise at Work Regulations

Jabra Link 280

Digital audio processor delivering great sound quality

- USB Y-training cable connects to any two Jabra QD headsets
- Supervisor function allows supervisor to stay muted or join the conversation
- Inline call controls; answer/end calls, adjust volume and mute the microphone
- Programmable soft buttons for individual preferences
- Compliant with Noise at Work Regulations

Jabra Link 360

Plug-and-play Bluetooth® mini USB adapter for PC

- Bluetooth® version BT 4.2 Class 1
- Wireless range up to 100m/330ft
- HD Voice/wideband audio and music streaming (A2DP¹)

Jabra Link 370

Plug-and-play Bluetooth® mini USB adapter for PC

- Bluetooth® version BT 4.2 Class 1
- Wireless range up to 30m/100ft
- High Definition sound for crystal clear conversations and music streaming (A2DP¹)
- Low power consumption Bluetooth® Low Energy (BTLE)

Jabra Busylight – Do not disturb

The Jabra Busylight helps you manage your personal workspace in an open office or hot desk environment where interruptions and distractions are high. Let your colleagues clearly see when you are on the phone: the indicator turns red when you're on a call and helps prevent you from being disturbed.

Compatible with: Jabra Pro 9400 Series, Motion Office, Link 850/860

¹ Device dependent

Leave the desk behind – Remote Call Control

Enjoy wireless freedom and remote call control from virtually any desk phone using an Electronic Hook Switch (EHS) cord. Answer or end calls, mute the microphone and adjust volume when you're away from the desk. To learn more about the Jabra RCC go to jabra.com/remotecallcontrol

Jabra Link 14201

Get remote call control on your wireless headset

- For desk phones providing EHS functionality
- Call control from your wireless headset up to 150m/490ft from your desk
- Answer or end calls, adjust the volume and mute your call from the headset
- Plug and Play solution; no mechanical handset-lifter needed

Amplify your audio – Audio processors

A range of audio processors that enhance sound quality and enable easy call management with a corded headset. To learn more about the Jabra accessories go to jabra.com/accessories

Jabra GN 8210

Digital audio processor delivering great sound quality

- Works with virtually any desk phone
- Unsurpassed digital protection against sudden volume peaks
- Automatically keeps incoming volume at user-defined levels
- Works with all professional corded Jabra QD headsets
- Compliant with Noise at work and AUS (TT4)

Jabra GN 1000

A mechanical handset lifter enabling remote call control with virtually any desk phone

- For desk phones not providing EHS functionality
- Wireless call control from your wireless headset up to 150m/495ft from your desk
- Answer/end calls, adjust the volume and mute your call from the headset

Jabra Link 850

Digital audio processor packed full of functionality for virtually any desk phone

- Works with traditional desk phones and PC
- Improves usability and adds safety to your headset
- Supervisor port for easy assistance and training purposes
- Easy connectivity and power through USB
- Compliant with Noise at Work

Jabra 1200 Series

Connect your desk phone to any Jabra QD headset

- Works with most desk phones
- Connects to all Jabra corded QD headsets
- Microphone amplification to boost transmit levels
- Compliant with Noise at Work¹
- Simple slide adjustment for easy setup
- Choice of straight or coiled cord

Jabra Link 860

Jabra Link 860 additional features

- Stream voice, music or sound from your computer
- Agent greeting, call transcribing and call recording
- Synchronizes volume between Link 860 audio enhancer and soft phone
- Easily switch between desk phone and softphone calls

¹ Available variants: GN 1200 (fits most needs), GN 1210 (Carbon based), GN 1216 (Avaya) and GN 1221 (Noise at Work)

This brochure is intended for use as a sales tool that provides a quick overview of our headset compatibility, which can be kept to hand for your customers. Here you will find, clearly summarized, which headsets are best suited to each telephone/softphone and which requirements must be met for each type. Also explained are a selection and a recommendation of the connection options for all telephones/softphones and headsets. Your Jabra team is happy to assist you with any unlisted phones, headsets and connection options, as well as with older models. Jabra has sought in good faith to put together the information provided herein on the basis of the necessary, available and appropriate information at the time of its creation. Any reference in this catalog is of a general nature and should be verified before any purchase or other activity. Jabra is not responsible for any claims arising from errors or outdated information that appears in this catalog.
