

Proofpoint Security Awareness Training

Packages Summary

Proofpoint Security Awareness Training packages provide you with an added layer of security. We use our unique tools and methodology to test and educate your employees about the latest threat trends. And as a Gartner MQ leader, Proofpoint can successfully engage and educate your users. This helps you reduce your number of successful phishing attacks and malware infections.

Customers across all industries use our security awareness solutions to reduce their risk from cyber attacks and to dramatically reduce their training costs. And these solutions make it easy for you to deliver the right training to the right people. This helps to ensure your users have the right response to security and privacy threats and requirements.
