

Intelligence, Automation, Analytics, and Workflows in a Single Platform

With ThreatConnect, you are able to centralize your intelligence, establish process consistency, scale operations, and measure your effectiveness all in one place.

Make your security operations and analysts more efficient, while providing real-time insights to security leaders to make better business decisions.

With ThreatConnect's intelligence-driven security operations platform, your team has the ability to leverage threat intelligence, automation, and orchestration directly from one platform. Automation or orchestration informed by threat intelligence makes your pre-existing technology investments and your entire security team — including security operations and incident response — more efficient and more effective.

A complete solution, ThreatConnect enables you to gain visibility into threats and understand their relevance to your organization, as well as increase efficiency with automation, task management, and orchestration. With ThreatConnect, every member of your security team — including leadership — benefits from using the same platform. A centralized system of record, ThreatConnect can measure the effectiveness of your organization with cross-platform analytics and customizable dashboards.

Product Features

- ✓ Open Source Feeds
- ✓ Ingest Premium Feeds
- ✓ Access to CAL™ Data
- ✓ TAXII Server
- ✓ ThreatConnect Intelligence Source
- ✓ Custom Dashboards
- ✓ Automated Email Import
- ✓ Manage Incidents and Tasks
- ✓ Create Threat Intelligence
- ✓ Orchestration
- ✓ Custom Indicator Types

The ThreatConnect Platform

Designed by Analysts, Built for the Team™

The ThreatConnect Platform supports a variety of use cases across your entire security team. Here are just a few examples of the processes that are supported:

Automated Phishing Reporting, Analysis, and Response

- ✓ Easy user reporting of emails to a central mailbox
- ✓ Automate email analysis to validate potentially malicious email components
- ✓ Quicker validation leads to faster response times

Information Sharing Across People and Technology

- ✓ STIX and TAXII supports sharing of threat intel
- ✓ Collaborate with industry groups through strategic partnerships and integrations
- ✓ Enhance intelligence with global context provided through ThreatConnect's CA

Automate Threat Hunting to Identify Threats Quicker

- ✓ Integrates with EDR solution to identify abnormalities quicker
- ✓ House all indicators and intelligence collected from external and internal sources
- ✓ Investigations that previously took days or weeks are now completed in minutes

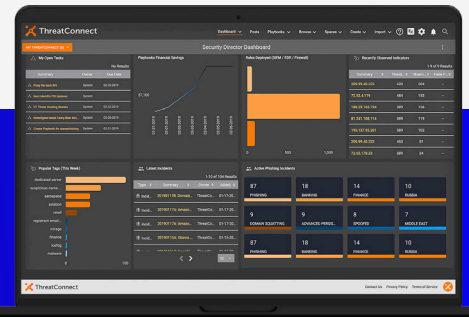

Provide Context to Cases with Integrated Intelligence

- ✓ Enrich data presented in ticketing system to maximize the application of threat intelligence
- ✓ Generate your own intelligence from existing cases to add back to the Platform
